

Opening speakers (in order)	
<p>Dr Annie Moulden, Clinical Lead Paediatric Clinical Network</p> <p>Annie has 25 years of clinical experience as Paediatrician and is a self-described Quality and Safety activist. She was awarded an Order of Australia Medal (OAM) in 2011 for her contribution to Paediatrics and to Patient Safety. Annie has had previous roles as the Director of Quality at RCH and the Clinical Director, Innovation and Quality at Monash Health and is currently the Medical Lead, Quality & Safety at RCH.</p>	
<p>Professor David Pilcher, Clinical Lead Critical Care Clinical Network, Safer Care Victoria</p> <p>David Pilcher is an Intensive Care Specialist at The Alfred Hospital in Melbourne and the Clinical Lead for the Critical Care Clinical Network, Safer Care Victoria. He trained in respiratory and general medicine in the UK before moving to Australia in 2002 to undertake training in Intensive Care Medicine. His interests include organ donation, lung transplantation, ECMO, severity adjustment of ICU outcomes, ICU performance monitoring and the epidemiology of Intensive Care medicine. He is the Director of the ANZICS Adult Patient Database and a medical advisor to DonateLife in Victoria. He is also an Adjunct Clinical Professor with the Department of Epidemiology and Preventive Medicine at Monash University.</p>	
<p>Peter Cameron, Clinical Lead Emergency Care Clinical Network (In absentia)</p> <p>Peter is Professor of Emergency Medicine and Divisional Head of Health Services Research at Monash University's School of Public Health and Preventive Medicine. He is Chair of the Monash/Alfred Injury Network which brings together in excess of 100 researchers, and a Chief Investigator on a number of major NHMRC grants and leading clinical quality registries.</p>	
<p>David Bevan, Principle Project Officer, Volume and Outcomes, Safer Care Victoria</p> <p>David works in the support and stewardship team, Safer Care Victoria. He leads on the development of volume-outcome reviews for the department, providing recommendations on centralisation, access and optimal service delivery. David previously worked in the UK for Public Health England and the National Institute for Health and Social Care as a health economist and lead systematic reviewer. While in the UK, he worked on the development of screening and vaccination programs for children and NICE clinical guidelines on Women's and Children's health.</p>	
<p>Monica Holdsworth, Manager Acute Care (Emergency Care, Critical Care & Infection Clinical Networks), Safer Care Victoria</p> <p>Monica has 24 years' nursing experience in both clinical and senior management roles. Monica's strength is quality improvement and building capability to support teams to achieve strategic priorities. Monica is an Improvement Advisor through the Institute for Healthcare Improvement and has completed an internship with Toyota. Monica has completed a Master of Nursing and a Professional Certificate in Operational Excellence and Health Systems Management through the University of Melbourne.</p>	

<p>Session One speakers (in order)</p>	
<p>Dr Felix Oberender, Paediatric Director Monash Children’s Hospital</p> <p>Felix is a PICU specialist with extensive experience in paediatric critical care.</p> <p>Felix trained in Paediatrics and Child Health in Germany and the United Kingdom before specialising in paediatric intensive care and retrieval medicine. Having moved to Melbourne in 2005, he worked at both Monash Medical Centre and RCH before taking up the role of PICU Director at Monash Children’s Hospital. Felix is a fellow of the College of Intensive Care Medicine of Australia and New Zealand and a member of the Royal College of Paediatrics and Child Health in the United Kingdom.</p> <p>Felix has a strong interest in general paediatric intensive care and is passionate about health systems improvement. As member of committees at college, state and health service level, he is actively engaged in the development of paediatric intensive care in Victoria.</p>	
<p>Dr David Tran, Clinical Director, Paediatrics</p> <p>Dr David Tran is a Melbourne trained General Paediatrician who has been busy overseeing the rapid expansion of Paediatrics in the Northern suburbs of Victoria. He has a particular interest in developing partnerships between paediatric hospitals as well as building strong ties with the local GPs and community health services, and dreams of a Victorian statewide paediatric plan. He has been a part of the team who has established the Paediatric High Dependency Unit at Northern Health which is located within their adult Intensive Care Unit.</p>	
<p>Ms Helen McKee, NUM ICU Albury Wodonga Health</p> <p>Helen McKee RN, RM, Ba Nursing, Oncology, Palliative Care, Intensive Care Certificate. Nurse Manager, Critical Care Unit, Albury Campus, Albury Wodonga Health which is a 272 bed 2 campus facility. CCU is 12 bed unit that provides care for Intensive care, HDU and CCU patients. Helen is an inaugural member of the Critical Care Clinical Network Governance group.</p>	
<p>A/Professor Michael Stewart, PIPER</p> <p>Michael is a Neonatologist and Director of PIPER. His interests are in retrieval medicine, fetal anomalies and quality improvement, and how to avoid “management by crisis” through anticipation and systems engineering. You are strongly advised not to approach him on a Monday after Geelong loses.</p>	
<p>Dr Sile Smith</p> <p>Irish by name (Sheila) and accent, with paediatrics as her home discipline, Síle is a consultant in the RCH intensive care unit and co-lead in paediatric retrieval as part of the PIPER (Perinatal Infant Paediatric Emergency Retrieval) with particular interest in education and training.</p>	

<p>Session Two speakers (in order)</p>	
<p>Dr Stewart Lewena, Emergency Physician, Royal Children’s Hospital</p> <p>Stuart is the Director of Emergency Medicine at The Royal Children’s Hospital having worked there as a paediatric emergency physician since 2003. Prior to that he had worked around Australia across a range of tertiary, regional and community settings including regional general practice. He is the past President of APLS Australia and has an interest in the practical translation of evidence and knowledge into patient care.</p>	
<p>Dr Simon Craig (Adjunct Professor, Emergency Medicine)</p> <p>Simon is an Emergency Physician working at Monash Medical Centre in Melbourne. He has a strong interest in clinical research, and is an active member of the PREDICT network. He wrote the Monash Children’s Paediatric Emergency Medication Book which has been endorsed by APLS, and was an editor of the recently released 3rd edition of the Textbook of Paediatric Emergency Medicine. He is undertaking a PhD in acute severe asthma, however, has in recent months discovered how much time can be wasted on Twitter!</p>	
<p>Ms Vicki Taylor, ANUM ICU Barwon Health</p> <p>Working as a Clinical Support Nurse at University Hospital Geelong in ICU. CCRN with 20+ years’ experience, with several years as ICU Liaison Nurse in the organisation. I am still working clinically at the bedside, but the majority of my time is spent supporting education, competency and practice development within our unit. I have been involved at all stages of the introduction and development of our Paediatric Service.</p>	
<p>Dr Andy Lovett, Clinical Director, Women’s and Children’s Health, Bendigo Health</p> <p>He’s been a paediatrician for more than 15 years and has spent his entire consultant career working in and around rural and regional Australia. He is a senior APLS Instructor and Course Director, and past chair of the RACP State Paediatric Divisional Committee. He’s sat on numerous state and federal college and government committees over the years.</p> <p>He has had a long-standing commitment to the development of a workforce capable of caring for Australia’s children- through the training of General Paediatricians, the development of specialist GP Paediatricians and hopefully next through the growth of General Paediatric nurse practitioners in regional settings. He is in the final throes of completing a Masters in Health Economics, Policy and Management at the London School of Economics- focusing on better measuring the costs to families in accessing care at a distance.</p>	

On behalf of Safer Care Victoria, the three clinical networks (Paediatric, Emergency Care and Critical Care) would like to thank our speakers and chairs for their time and commitment to this event.
